

Welcome to the Twin Oaks Valley of San Marcos, California!

The Twin Oaks Valley Equestrian Association and Horse Heritage Conservancy welcome property owners, equestrian supporters, equestrian professionals, horse and rider training operations, and all those who enjoy the fabulous offerings of Walnut Grove Equestrian Park and the San Marcos trails system in this beautiful and special valley.

Walnut Grove Park is a hidden jewel in north San Diego County – a public facility that is prized by all those who use it, and supported by our organizations for the benefit of all.

Twin Oaks Valley Equestrian Association was founded in 2005 to speak for and represent the community in order to preserve this lovely area which is predominantly rural and equestrian, and to help sustain the region's trails system and our greatly valued Walnut Grove Equestrian Park. The Horse Heritage Conservancy was incorporated and received its IRS 501(c)(3) public charity status in 2016. Together, these organizations carry out the mission: "To serve as an advocate for horses and the Equestrian and Rural lifestyles in the Twin Oaks Valley and surrounding communities."

In doing so, we work with the community's equestrian professionals, horse owners and riders, riding organizations, backyard horse keepers, and businesses to elevate the profile of Walnut Grove Horse Park and the trails system to ensure its continued and expanded usage and value to its appreciative users and the City of San Marcos. It is our goal to familiarize the community with what this park has to offer and to encourage use by the community horse enthusiasts. Take your horses to the park via the trails or a trailer and enjoy the mini-vacation from the daily routine. Take advantage of the facilities and hold your own event there.

TOVEA and HHC have funded and advocated for many improvements at the park over the years in order to make your usage safer and more pleasurable: bleachers, corrals, buildings, arena care and maintenance like new and refreshed footings, and new fencing for both warm up and main arenas. Our goal is to allow everyone to have a pleasurable experience, whether riding or being a spectator at one of many events, shows, or clinics held there.

Please join us in our efforts to not only continue our mission but to also enjoy the horse park and trails. If you haven't yet had the opportunity, please come to check it all out at 1950 Sycamore Drive, San Marcos, CA 92069.
